Middle-Aged Men.

(The Pelican—Sept., 1915)

"Why Do Middle-Aged Men Break Down?" is the heading placed over an article in the science and invention department of the Literary Digest for August 14, 1915, from which the following extracts are of particular interest to life insurance students.

"That men just past the prime of life—say, just over forty—are very much more apt to succumb to disease than they were immediately before, and that this likelihood is greater now than it was a dozen years ago, is shown by a comparative table compiled by Dr. Chas. F. Bolduan, of the New York City Health Department, to serve as the text of an article on this subject contributed by him to The Scientific American (New York, July 17, 1915). The numerical evidence furnished by the table is hardly necessary, he thinks, for this modern tendency to go to pieces on the part of our middle-aged men seems to be universally admitted by physician and layman alike. It is only when we begin to inquire into cause that we meet with differences of opinion. The prohibitionist reformer, says Dr. Bolduan, is sure that it is all due to alcohol. The food-faddist attributes it to denatured foods. Others still are certain that immorality is the cause; the legislators of several of our Western States even lay the blame on the 'deadly cigarette.' And the harassed business man sitting in his club with a highball beside him and puffing at a black cigar assures you most emphatically that the rush of modern business life supplies the correct answer. Dr. Bolduan's own answer is refreshingly short and sweet. 'Why do men over forty break down?' he asks. 'Indulging their appetites.' When one has reached the age indicated he should apparently ask himself seriously, 'What do I want to do?'—and then not do it. Says Dr. Bolduan:

"We can gain an insight into the reasons why men over forty break down by examining into the prominent causes of death which carry them off at that time. Without citing the figures, I may say that this reveals a marked increase, in recent years, of deaths from heart disease, arteriosclerosis, Bright's disease, and certain diseases of the nervous system.

"These diseases are intimately related to one another, and have many causative factors in common. Among these the most important are overindulgence in alcohol and tobacco, the poisons of syphilis, gout, rheumatism, and certain other diseases, overeating, especially overeating of meat, lead-poisoning, muscular overwork, exposure to cold and wet, and exposure to great heat."

"Various factors combine, Dr. Bolduan says, to prevent health-administrators from making headway against these diseases. In the first place, the onset is insidious, so that the disease becomes established before it is recognized. In the second place, it is not easy to prove to the patient the causal relationship of the inciting factor. Thirdly, most of the cases above enumerated are associated with some form of indulgence of the appetites and these are difficult to control. He goes on:

"At the present time the average deathrate in the United States is about 14, i. e., fourteen out of every 1,000 persons die annually. The writer is convinced that if syphilis and alcohol could be entirely eliminated, the rate would at once fall to 12 or under.

"I have already mentioned that the diseases playing so prominent a part in the mortality of men over forty, namely a part in the disease, arteriosclerosis, and Bright's disease, begin insidiously. It is important to remember, however, that a competent physician is able to recognize the signs long before your own attention may be aroused by the symptoms."

"Life insurance examinations confirm this last statement by Dr. Bolduan and life insurance statistics are upright in line with the hypothesis upon which his conclusions are based. The whole presentation as given in the Literary Digest is a decided argument for taking Mutual Benefit insurance at a young age and maintaining it."

SHORT SESSION CITY COUNCIL YESTERDAY

WAS REGULAR MEETING AND FEW MATTERS DISCUSSED

APPROPRIATE \$250

For Relief Work to Be Used By Salvation Army—Petitions Were Few in Number.

The regular meeting of city council yesterday afternoon at 3:30 o'clock was one of the shortest of several months and only business of minor importance was transacted, such as petitions being heard and reports of committees.

A petition was read asking that North East street be curbed and drained from Greenville street to Roberts. This was referred to the city engineer, who will estimate and report on costs. Petition also presented asking that an arc light be placed at the corner of John and East streets. This matter was referred to the water and light committee.

A motion to the effect that the sidewalks on Piedmont avenue be paved and curbstones put down to Tribble street was referred to the street committee.

The water and light committee recommended that a light be placed on Tribble street near the Underpaths and council adopted a motion to that effect.

The Salvation Army had asked that the city renew its appropriation for relief in the city of Anderson and a motion that this be done passed. The city has been paying \$250 a year and this amount will be paid for the year ending August 15, 1916. This appropriation is made with the understanding that the Salvation Army have charge of all relief work.

Council decided to employ Mr. J. R. Mayfield to drive the street fisher and to attend to other duties that might be outlined by Health Officer Campbell. A recommendation was made sometime ago by the board of health that a white man be employed to do this work.

Alderman Carter made a motion that the city purchase an automobile for the chief of police, but withdrew it after it was seen there was objection. It was explained that the city's finances did not warrant such expenditure at present.

There being no further business council adjourned.

Mr. Russell Improved.
It was stated last night that the condition of Mr. D. H. Russell, who has been ill for the past few days, was better and that he was much brighter. This will be pleasing news to his many friends. His daughter, Miss Leila Russell of Rock Hill, and son, Mr. Tom Russell of Staunton, Va., are in the city with him.

CARD OF THANKS

News reached the city yesterday afternoon of the death of Mrs. J. M. Dodson at her home at Donalds. Mrs. Dodson had been ill for several weeks and her death was not unexpected. Funeral services will be held this afternoon at Donalds at 2 o'clock.

Besides her husband Mrs. Dodson is survived by eight children, two of whom live in this city, Mr. J. C. Dodson of the Bee Hive and Mr. O. M. Dodson, Rubenstein's.

Pretty Big Force.
"Have you much of a police force in the village?" asked the city man in the country.
"We certainly have," replied the native; "he weighs 310 pounds."

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back hurts or Bladder bothers, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

Coast to Coast in 80 Days.

Robert Burns.

Robert Burns covered the 3,640 miles between San Francisco and New York in eighty days, which is thirty-two days less than it took Edward Payson Weston, thereby establishing a new world's record for long distance walking. He has started on his return trip and he expects to be in San Francisco in January, and later in the month back in Eureka, Cal., which was his original starting point.

Some public spirited citizens of Eureka thought it a good advertisement for Eureka to have one of her sons attempting such a feat, so they told Burns he would be given \$500 if he got back before next January. He is also allowed \$1.50 a day for his meals and lodging.

"I was the first hiker to make the trip over the Lincoln Highway from 'Frisco to Jersey City," said Burns.

MANY LIQUOR CASES IN FEDERAL COURT

October Term Commences in Greenville—Most of Defendants Are Pleading Guilty.

Greenville, Oct. 5.—With Judge Jos. T. Johnson upon the bench and District Attorney J. Thurman and Assistant District Attorney Mayes conducting the prosecution, the October term of federal court convened in this city this morning.

Although a number of defendants were before the court during the course of the day, only one case was set before the jury, the remainder defendants entering pleas of guilty to the charges preferred.

E. F. McCrary pleaded guilty to the charge of illicit distilling, and was sentenced to serve one month in the Pickens county jail.

A bench warrant was issued to have Claudia Wright, a white woman, brought in court for trial on a charge of selling whiskey without a federal license.

Through his attorney George Campbell, entered a plea of guilty to the charge of illicit distilling. Upon request of counsel for the defendant, Judge Johnson deferred the imposition of sentence until the last day of the present term of court.

Joe Ellenberg pleaded guilty to the charge of illicit distilling and was sentenced to serve one month in the Pickens jail.

The only jury trial of the morning was the case of the United States against George Hendrix, charged with illicit distilling.

Card of Thanks.

To the merchants, clerks, veterans, Knights of Pythias and friends in the city:

We kindly thank each one of you for the lovely floral tributes and expressions of appreciation and sympathy of our departed son and brother, C. C. Langston. May each of your lives be a season of blessing in the years to come.
Mrs. Lucy J. Langston and Family.

The Denver Schools.

The Denver and Smith schools will open next Monday, October 11, at 9 o'clock. As many of the patrons and friends as can are requested to meet with the teachers on that date as we expect Supt. Felton to be with us.
W. E. Eakew,
Chairman Board Trustees.

Lead Tents to Storm Victims.

Washington, Oct. 5.—In response to a request of Governor Hall of Louisiana, Acting Secretary of the Treasury Newton, authorized the public health officials to lend tents and other equipment to the hurricane sufferers.

WILL ARRANGE PLANS CLEMSON-AUBURN GAME

COMMITTEES TO MEET TO NIGHT TO DISCUSS THESE MATTERS

MUCH TO BE DONE

Advertising Campaign Must Begin, Ground Put in Shape and Entertainment Planned.

Committees will be appointed today and a meeting will be held tonight for the purpose of perfecting plans for the Clemson-Auburn game which will be played in Anderson on Saturday October 16. The members of the committees will be chosen from the names of those appearing on the guarantee for the game.

The football game is now an assured fact and will be played on the afternoon of the 16th rain or shine. Word from Auburn states that their football team is getting stronger every day and that they are looking forward to the game in Anderson. The Clemson team is putting in hard practice every afternoon and will be ready to meet Auburn on the 16th. This is expected to be one of the best games played in the south this season and will attract hundreds from all over North and South Carolina, Georgia and Alabama.

The committees to be appointed today will get to work and make preparations and arrange for the details in regard to the big game, such as advertising, arranging entertainment for the members of the teams, cleaning of the grounds and arranging for the selling of the tickets. At the meeting tonight all of these matters will be thoroughly discussed and all committees will get busy at once.

YESTERDAY'S RESULTS.

All games scheduled in National and American leagues postponed on account of rain.

DECLINES INVITATION TO ATTEND BOSTON GAME

Washington, Oct. 5.—President Wilson today declined the invitation extended by Representative Gallivan of Massachusetts to attend the world's series games at Boston. The president had already promised to throw out the first ball at Saturday's game at Philadelphia.

ANNUAL MEETING OF MILL STOCKHOLDERS

DIRECTORS ELECTED FOR TOXAWAY MILL FOR NEXT YEAR

REPORT FAVORABLE

Owing to Absence of Some of Members Directors Postponed Their Annual Meeting.

The annual meeting of the stockholders of the Toxaway Mills was held yesterday at 3 o'clock in the office of the company. The report of President D. B. Gossett was evidence that the mills have had a profitable year considering the conditions of the past 12 months.

The board of directors elected yesterday is as follows: W. H. Baldwin, Jr., of Baltimore; S. Craig Mitchell, of Philadelphia; W. C. Cleveland of Greenville, who succeeds Thos. Hildt of New York, resigned; Alfred Moore of Welford, Jas. P. Gossett of Williamston, and Jas. D. Hammett, D. A. Ledbetter and B. B. Gossett of Anderson.

Owing to the fact that there was not a quorum present of the board of directors, the annual meeting of the board was not held.

TAKE SALTS FOR THE KIDNEYS IF YOUR BACK HURTS

We Should Drink Lots of Water and Eat Less Meat, Says Noted Authority on Kidney Disorders

Recommends a Spoonful of Jad Salts in Glass of Water Before Breakfast to Stimulate Kidneys and Eliminate the Uric Acid

Uric acid in meat excites the kidneys, they become overworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overworking kidney trouble while it is only trouble.
